

# Ulván

Known as: Ulvan

Extracted from Australian green algae

Structural Formula

## Ink Characteristics

White to off white flakes  
Low protein content  
High percentage of sulfur  
Desirable rheological properties for printing  
pH of Solution (2%): 6.8 - 7.2  
Low trace metal impurities

## Characterisation

Purity by NMR  
Trace metal analysis by ICP-OES  
Moisture  
Molecular weight by GPC  
FT-IR
